"Most people spend their lives living in dreary, beige conformity, mortally afraid of using color. The main purpose of my work is to provoke people into using their imagination and make their surroundings more exciting." -Verner Panton. The Amoeba was originally dreamed up for Panton's Visiona installation. It is a marvelous example of close-to-the-floor lounge furniture and embodies the spirit of the early 70's. In bright colors, the re-edition delivers even greater comfort thanks to its flexible backrest shell. Design Verner Panton, 1970.
