

Data Logger Tinytag Plus 2 - TGP4020

Ex Tax: 203.00€

Rugged, waterproof, temperature data logger for use with a thermistor probe. -40 to +125°C. Requires Thermistor Probe. The TGP-4020 monitors temperatures from -40 to +125°C using one of our range of thermistor probes, making it ideal for awkward to reach areas or where a fast response time is required. Like the logger, the majority of thermistor probes available are waterproof to IP68, making the unit a versatile solution for many outdoor and industrial applications. This logger requires Tinytag Explorer software and a USB cable at extra cost.
