

FCC Series New Deal Armchair

Ex Tax: 0.00€

A great classic and a symbol of the prestigious tradition of Poltrona Frau, in a re-edition of the no.904 model from 1930. Its timeless design takes shape from a modern conception of furniture, adapting to different styles of living with natural elegance. It is an iconic piece that always keeps its striking personality intact. Its rounded shapes are an invitation to let yourself be embraced by a seat that is soft, generous and comfortable. The upholstery in Pelle Frau leather captures attention with its authentic warmth and incredible sensory charm. The frame is in seasoned beech-wood and supports the springing structure, giving shape and consistency to the padding and ensuring optimal hold and exceptional comfort. The seat, backrest and armrest springing is created with eight-way steel springs, tied by hand and supported on jute webbing. The padding in the seat and backrest is in rubberised horsehair, which improves the hold. The armrests are padded in vegetable horsehair modelled by hand and the seat cushion is made with goose down.
