

FCC Series Gueridon Bas Coffee Table Ash

Ex Tax: 275.50€

Designed 1944. In the early 1940s Jean Prouvé turned his attention increasingly to wood as a material. In the case of the Guéridon Bas coffee table a sturdy top is positioned on three solid oak feet. The elements are connected to each other by means of a folded sheet metal construction. Referencing a tropical wood version of the time entitled "Table Africaine", this re-edition is also available in impregnated dark oak. Material: Ash solid wood.
