

MH Series MS modular panel system k1

Ex Tax: 546.56€

A large but lightweight system, perfect for semi permanent displays. With the option of straight and curved display panels, assembly is easy as the display system components fit together into a secure and stable structure. Accessories and replacement components are available, which makes extending or maintaining your display kit simple. Chrome frames make up the surround for each display panel which can be finished in MH Expoloop Fabric, allowing you to quickly and easily update your display. Foam board graphics can also be fitted to the frame with plastic clip strips.
