

MH Series P+P Display board 2100H x 900W

Ex Tax: 315.44€

Aluminium Framed Pole and Display Panel System easy to assemble, finished in MH Expoloop Fabric. The display panels are attached to aluminium poles with a simple clip system. Available in a range of panel sizes to suit your specific requirements. To create a single display board kit would require one double sided panel, two bases and two poles. Four clips are supplied with each panel. The panel display board kit is double sided, covered in MH Expoloop fabric, the display panels are compatible with MH Dots and Dash. Which makes this lightweight, portable display ideal for; partitioning, screening and information display.
