Little globe chair. Foam upholstered shell, chrome base. "A chair should be more than simply functional. It should be friendly, fun and colorful." -Pierre Paulin. The shape and size of Little Globe suggests open space... even in smaller environments. With its elegantly rounded pedestal, the Globe seems to have escaped from a James Bond movie. It is a luxurious and stylish design that made enthusiastic use of the latest technology of the time. Providing that true design is timeless. There is also a dignified Globe with a high back and optional ottoman. A perfect chair for the study, living room or a New York City apartment. Design Pierre Paulin, 1960.
