

Paraloid B-72 Adhesive (250gr)

Ex Tax: 14.06€

Paraloid B-72 (also known as Acryloyd) is a copolymer of ethyl methacrylate and methyl acrylate supplied in 100% resin pellets which are soluble in acetone, toluene and xylene. An excellent general purpose resin/adhesive, paraloid can be applied in either clear or pigmented coatings by a variety of application methods and can be air dried or baked.
