

Hollytex (G) 17gsm 1194mm x 25M

Ex Tax: 163.97€

Very low lint, smooth high tensile strength acid free non woven 100% polyester. Hollytex is used for backing, lining, interleaving, and leaf casting. As a support material for drying and paper infill it's excellent since it permits instant drainage. A quality material for conservators who use it in various preservation procedures.
