

Juris Expansion Folders - A4 size, 318 x 230mm - pack of 100

Ex Tax: 143.96€

These expansion folders have four scored flaps so that the folder thickness can be adjusted to accommodate varying amounts of loose or bound papers up to 30mm thickness. The seven scores allow easy creasing, each score is 5mm apart and no tools are needed to make the folder adjustment. The folder card is acid-free, ligning-free, 245gsm file folder stock which is also buffered with a 3% calcium carbonate to help the control of migrant acidity. These light-fast, non-bleeding, soil resistant expansion folders are available in A4, letter and legal sizes. The folders meet the Library of Congress specification and they have passed the PAT test. Please note PEL do not print or emboss these folders they are 100% plain. BEWARE of embossed printed folders that may overtime leave impression on the papers inside.
