

FBB Series Mr adjustable Chaise Longue Leather

Ex Tax: 761.90€

ΣΕΙΡΑ FB Rohe Chaise Longue Chair - Πολυθρόνα.
Μεταλλικός σωληνωτός σκελετός SUS304. Ανω τμήμα με
δέρμα. Μ1930 x Π600 x Υ930. Σχεδίαση Mies Van Der Rohe
(1932). Mr adjustable chaise lounge. Tubular steel frame,
cowhide. "Architecture is a language, when you are very
good you can be a poet." -Ludwig Mies Van der Rohe.
Influenced by Marcel Breuer's use of tubular steel, Ludwig
Mies van der Rohe quickly recognized the compatibility of
this revolutionary material with the contemporary design
ethos. Inspired by the lines of tubular iron rockers designed
in Europe during the mid-19th century, Mies incorporated a
new material and a new technology in the use of the
cantilever principle. The MR Collection of tubular steel
lounge furniture includes the MR chairs, chaise lounge, and
adjustable chaise lounge. Design Ludwig Mies van der
Rohe, 1927-1932.
