

TP+ES Series Retractable m.GaTel-012

Ex Tax: 0.00€

5 step Retractable - telescopic Bleacher with a 800mm wide platform, built according to DIN18 032 1055 and supporting a vertical load of 750kg/m². Rear and intermediate bracing profile sufficiently dimensioned to ensure the lateral stability of each platform. Plywood platforms and steps type WBP 21 mm thick (density 620kg/cm and module elasticity of 35000kg/cm). Wheel necessary for the load transfer does not exceed 80kg per unit. Triggers with metal closure safety that prevents accidental folding. The side rails are telescopic if the space permits, otherwise they are manually removable. Front rails are manually fixed. Power driver with 3-phase gearmotors. UCP bearings autolubricated. (Electrical controller panel for connection to mains, not included). Seats are not included and can be selected according to the need. Please consult tech support dept.
