

ANC-LA Edu Series Blade

Ex Tax: 0.00€

Blade system is a system for conference halls, university lecture theatres and auditorium, which provides for the total integration of the elements composing the system (study bench, structure, floating floor, risers and soundproof walls). The study bench can also be supplied individually for assembling on flat floor or on an existing step construction. The system's constructive flexibility allows every project to be developed exclusively on demand to meet specific project needs. Centre-to-center min. 51 cm. and max. 65 cm.
