

Anoxia Chamber 3 Light

Ex Tax: 0.00€

The 3 model Light Anoxia chamber is user friendly, with automated/intuitive operation mechanisms and, with easily operated controls enabling an unskilled operator to use the mechanical system. Inside the 3m3 chamber, there is a modified low oxygen atmosphere in which the parameters are monitored to ensure the effectiveness of the disinfection anoxia: duration of treatment, the oxygen content, relative humidity, temperature and atmospheric pressure.
