

Data Logger Tinytag Plus 2 - TGP4520

Ex Tax: 320.60€

Rugged, waterproof temperature data logger for use with two thermistor probes. -40 to +125°C (x2). Requires Thermistor Probes. The TGP-4520 uses two of our range of thermistor probes to enable monitoring of two points between -40 to +125°C. This versatile unit is ideal for comparison of, for example, both ambient and process temperatures. Like the logger, the majority of thermistor probes available are waterproof to IP68. This logger requires Tinytag Explorer software and a USB cable at extra cost.
