

CH28p upholstered easy chair (by C H&Son)

Ex Tax: 4,155.00€

Solid oak or oak/walnut, veneer, cold foam, upholstery. The CH28 was originally designed in 1952. It is an elegant, very comfortable, pure wood easy chair that only Wegner could design. The sawback design is closely related to Wegner's CH29 dining chair. Suitable for use on its own or in groups. CH28 is available in an oak/walnut combination (reminiscent of Wegner's original oak/teak combination) or in pure oak. Wood species can be finished with natural oil, white pigmented oil (pure oak only) or lacquered and offered with upholstered seat & back.
