

Cherner lounge side chair & ottoman

Ex Tax: 1,748.00€

Laminated molded plywood, solid wood. The lounge chair and ottoman designed by Benjamin Cherner is the latest addition to the Cherner seating collection. These new designs combine a molded plywood shell, solid bentwood arm and laminated wood base are combined to produce a dynamically comfortable and curvilinear form. A graceful addition to the home or office, the Cherner lounge is available with or without arms in a variety of Cherner finishes and upholstery options. The "walnut stained walnut" option has a walnut seat that has been covered with a walnut finish, which give the core and walnut veneer a uniform appearance. The "walnut-clear stain" option has a walnut seat and has been covered with a clear finish, which emphasizes the contrast between the exposed beech core and walnut face veneer. The Cherner lounge chair and ottoman are made entirely in the USA from the highest quality sustainable domestic sources. Design Benjamin Cherner, 2012.
