

Tess Series Access 1000 Display Storage 6 drawers

Ex Tax: 12,007.17€

The Access Display Storage Range is manufactured from high quality 1.2 gauge CR4 rolled steel, with a fully welded external casing for long lasting strength and rigidity. Each unit is fitted with heavy duty levelling feet to compensate for uneven floor surfaces. Each unit is fitted with high quality, high capacity drawer slides. Individual drawer heights may be mixed, with the overall height varying according to the number and height of the individual drawers, along with the inclusion of the optional plinth and/or worktop. Standard individual drawer heights are: 150 / 300mm all fitted with lock in place, 6,4mm thick laminated glass top with inert seals to prevent dust ingress. Not included: Any form of environmental control, Lighting inside the drawers (per drawer high quality LEDm active when drawer is opened), Dress/lining panels inside the drawers.
