

AB Series Window module ws (tri-module)

Ex Tax: 3,900.00€

Window is a magazine display that works as a sound absorber or a sound absorber that works as a magazine display. Window is both available as a stand and as a wall module unit. Molded felt is the basic material of Window. The material is recyclable, sound absorbent, lightweight and durable. To further improve the sound-absorbing properties Window has been provided with Recycle Fiber board on the inside. The stand consists of white or black lacquered MDF and is fitted with adjustable feet.
