

AB Series Triline Wall pt1

Ex Tax: 265.00€

Triline Wall. By creating a sound-absorbing wall panel with angled shapes you achieve not only an aesthetic expression, but also additional sound absorbing effect. The Triline wall panel uses hidden mounting bars that allow the panel to be hung either horizontally or vertically which gives further possibilities with patterns. The size of 800 x 400 mm enables creating both symmetrical and asymmetrical formations. The modules have a sound-absorbing filling which is covered with fabric. Standard fabric is Europost.
