

AB Series Triline 1200 x 1700H

Ex Tax: 853.00€

Triline is an exciting screen in a new shape. The triangular shape on the screen does not only ensure that the aesthetical expression is kept, but also hinders the sound waves to bounce straight back, thus working as a good sound absorbent. It consists of a acoustic panel of fireproof mineral wool. With its sound absorbing core, it creates a comfortable work space. The screen is reversible and offers great variation possibilities. The displaced triangle can be placed either to the right or left. As a result, a beautiful relief-pattern is created when the screens are placed next to each other. The back is smooth and therefore it can be placed directly against a table. Indicated heights are excluding legs. Legs will add 13 cm. Cover plug is included.
