

PA Series AF Telescopic Partition 1830H x 2130W

Ex Tax: 890.00€

Elegant extruded aluminium frame which makes it strong yet lighter than partitions with steel frames. Each aluminium panel frame is joined through a unique cast aluminium corner joint providing superior strength and durability. Its stability allows for hanging objects such as artwork, photos, whiteboards etc. over the top of the partition to make mobile galleries, information walls or classrooms. The UHMW slides with aluminum covers allow for years of smooth operation. Equipped with a patented sliding mechanism- infinitely adjustable width. Applications include: nursing stations, vaccination areas, impromptu meeting or testing areas, and more. Perfect for instant privacy in apartments, homes, schools, and offices.
