

The Chair

Ex Tax: 5,245.00€

"The chair is the thing that is closest to people, so it is important that its detailing is in order." -Hans Wegner. Solid beech frame, upholstery, metal legs. CH468 is a sculptural easy chair whose construction, back and neck support afford a variety of very comfortable ways to sit. The legs, in brushed stainless steel, create a balanced contrast to the capacious upholstery. CH468 is available upholstered in leather or fabric with optional footrest for added comfort. Design Hans Wegner, 1960
