Orange slice chair. Beech shells, upholstery, steel. "A chair should be more than simply functional. It should be friendly, fun and colorful." -Pierre Paulin. Designed in 1960, the Orange Slice is a timeless icon that looks as fresh and inspired today as it did when it was first created. Anyone who sees several Slice chairs together cannot fail to be touched by the playfulness of the composition. From different visual angles, the Orange Slice shows several stages of 'curl up'. In fact, the chair seems to change shape every time you look at it. Design Pierre Paulin, 1960.
