Ex Tax: 5,175.00€

The contours of George Nelson's Coconut chair invite you to surround yourself in comfort. Originally introduced by Herman Miller in 1955, the Nelson coconut chair is a 20th century furniture icon. A chair designed to look like a section of coconut shell wasn't a stretch for someone who said, "Total design is nothing more or less than a process of relating everything to everything." The Coconut chair offers a simple, striking shape, and it's also a very comfortable place to unwind at home or in the private office or lounge. Molded plastic shell, chromed steel base, leather upholstery. Design George Nelson, 1955.
