

Corex Corrugated Plastic Sheets White 1550 x 1040 x 4mm (25pack)

Ex Tax: 286.72€

This rigid, heat resistant, chemically stable copolymer of polypropylene and polyethylene features a sturdiness unmatched by corrugated plastic boards. Tests have proven that Corrugated Plastic has significantly higher burst, puncture and edge and flat crush properties than B flute fibreboard. Corrugated Plastic will not burst on the Mullen Test. An ideal material for box making, print backing, picture framing, artifact support and much more. Available in solid white and translucent for applications where some amount of visibility is preferred.
