

Buffered Acid Free Paper 110gsm Tan 1321mm x 229M

Ex Tax: 615.71€

This sturdy acid free, medium weight (110gsm) light tan paper has excellent strength for many uses. It is an excellent choice for wrapping and protection of documents and art work for either storage or shipping. It is buffered and has a minimum pH of 7.0 (maximum of 8.5). The pleasing, blue/grey, 90gsm paper is acid free, buffered and lignen free, with excellent folding, cutting and handling characteristics. The paper's moderately porous surface allows the paper to breathe making it ideal as a frame backing paper. Being acid free the buffered paper contains no harmful acids that commonly occur in brown kraft paper.
