

Vertical File Jackets Acid Free - Letter sized 298mmW x 241mmH - pack of 10

Ex Tax: 48.82€

Access the contents of your file jackets without pulling the files out or tugging open the flap. These vertical file jackets combine instant access to documents afforded by the open design with the safety of archival quality materials. One piece construction file jackets are made of sturdy 260gsm Perma/Dur® folder stock with an alkaline reserve and have a 13mm exposed reinforced extended back for labeling. Pleats for 25mm expansion also give the file a firm base on which to stand.
