

ANC Wood slab series Dinning table Mandala z1

Ex Tax: 0.00€

Designed to maximize our commitment with environmental sustainability, the Mandala Dining Table uses scraps of hardwood collected from our own manufacturing process, when making larger furniture items such as cocktail tables, dining tables and consoles. The result is a round glass dining table, which shows a mosaic made from salvaged hardwood, placed forming a very unique piece. The dining table metal base is made of steel with a powder coating finish. The Mandala Dining Table can be made to order in various shapes and dimensions.
