ΣΕΙΡΑ A BOULOUM Chaise lounge 691 - Ξαπλωτό κάθισμα.
Ενιαίο μορφοποιημένο κέλυφος από μεταλλικό σωληνωτό
πλαίσιο με αφρό HR urethane και εξωτερική αμφίπλευρη
επένδυση. Π660xB1524xY660. Σχεδίαση: Olivier Mourgue
(1969). Bouloum Lounge. Foam upholstered tubular steel
frame. With its anthropomorphic form, the Bouloum was
named after a childhood friend of its designer, Olivier
Mourgue, who took the charismatic seat with him when he
travelled... even going so far as photographing it in various
situations and writing anecdotes. As comfortable as it is
provocative, one simply must experience the Bouloum to
fully understand it. But be warned... once experienced, you
will simply have to have one of your own.... it is that
comfortable. Playful and practical, Bouloum is in the
permanent collection of the Museum of Modern Art in New
York. Design Olivier Mourgue, 1969.
