

ANC-LA Edu Series Runner S tipup table Bi-lam

Ex Tax: 584.00€

Integrated and continuous system of seats and tables that can be arranged in a straight line or curved composition, on large steps or on sloped flooring. The centre-to-centre distance between seats can be adjusted: minimum 51 cm. The bearing structure and backrest for the system are made of horizontal bars in extruded aluminium, all complementary elements: uprights, tables, seats, feet, are fixed to the extruded elements using couplings that require no drilling beforehand or a fixed distance modular set-up.
